PREPARED, AT YOUR PACE.

Your household, on one page.

The people in your plan

Household members / pets / additional support needs:

Out-of-area contact - name and phone:

Nearby contact - name and phone:

Meeting place close to home:

Meeting place outside your neighborhood:

Safe relocation option / transport arrangements:

Water shutoff / electrical panel location:

Medication, medical equipment and refill backup plan:

Keep a printed copy where you can find it. Protect personal contact and medical details.

SMALL STEPS. A CLEARER PLAN.

Before the next interruption.

Check what is actually ready

- [ ] Safe drinking water and containers; individual and pet needs reviewed.
- [ ] Shelf-stable food you can eat; manual opener and dietary needs covered.
- [ ] Tested battery lights, spare batteries and phone charging options.
- [ ] First aid supplies and an individual medication / medical-equipment plan.
- [ ] Soap, hygiene supplies and a locally appropriate emergency toilet plan.
- [ ] Working smoke and carbon monoxide alarms; usable exit routes.
- [ ] Local radio / alerts and printed contacts / household meeting plan.
- [ ] Safe heated / cooled relocation option; assistance and transport arranged.

Test your offline companion

- [ ] Open the published app online, then select Download & verify.
- [ ] Wait for all core files to pass the local integrity check.
- [ ] Install from Android Chrome; turn on airplane mode and close the app.
- [ ] Reopen, search a guide, save a supply and open a stored PDF.
- [ ] Restart your phone and repeat. Keep an exported backup separately.

Browser data can be cleared. This app does not guarantee safety or storage permanence.

For emergencies call 911 when available and follow current local official instructions.
